Experience

PMI Lakeshore Ontario — Project Coordinator | Quarterly Newsletter Jan 2026 - Present

- Coordinate quarterly newsletter projects across 10+ stakeholders, managing timelines, deliverables, reviews, dependencies, and follow-ups from planning through publication
- Maintain project trackers, action items, documentation, and stakeholder updates using SharePoint, Smartsheet, Microsoft 365, and Google Workspace.
- Achieved 90% on-time completion and improved workflow coordination by 20% through structured scheduling, stakeholder follow-ups, and review-cycle management.

World Financial Group — Financial Services Associate Jan 2026 - Present

- Coordinated end-to-end client workflows for FNA, TFSA, and insurance applications, gathering requirements, organizing documentation, and managing submissions through iA and iVari platforms.
- Collaborated with clients, internal associates, and financial-service partners to resolve documentation gaps, follow up on outstanding requirements, and minimize application delays.
- Maintained trackers, action items, deadlines, and application status updates using Microsoft Excel, Outlook, and Microsoft 365, helping keep multiple client cases organized and progressing on schedule.

PMI Lakeshore Ontario — Team Lead | Content Review Apr 2024 - Dec 2025

- Coordinated content-review workflows across contributors and reviewers, assigning articles, tracking deadlines, and following up on outstanding submissions
- Maintained document repositories and review status using Google Docs, OneDrive, and tracking tools to improve visibility and version control.
- Improved on-time submissions and document accessibility by approximately 20% through standardized review processes and centralized documentation.

Algoma University — IT Ambassador May 2025 - June 2025

- Coordinated LMS onboarding for 50+ students achieving 90% successful onboarding by guiding account setup, course access, and platform navigation.
- Standardized recurring onboarding guidance reducing repetitive student queries by 20% through step-by-step instructions for common LMS issues.
- Resolved 30+ LMS and technical support queries reducing onboarding-related delays by 25% through timely troubleshooting of login and course access issues.

Nest Software Private Limited — Assistant Project Manager Jun 2022 - Jul 2023

- Coordinated end-to-end delivery of a digital platform improving schedule adherence by 15% through tracking dependencies, testing progress, and feedback using Jira and MS Project.
- Developed risk registers, stakeholder registers, and communication plans improving stakeholder visibility by 30% through documented risks, issues, and dependency tracking.
- Monitored release readiness reducing rework by 20% by tracking testing progress, open issues, and dependencies using Jira and GoodDay.
